The whimsical toy known as a kaleidoscope has always been interesting to people of all ages. There is a fascination in watching the shifting of the particles of colored glass into new and ever strange aspects and pictures.

There is a sort of real life kaleidoscope which is still more strange and fascinating to those who give it some attention. It consists of the want ad, columns of a newspaper.

These want ad. columns are as interesting as the lives of the people-which they reflect. They show us veiled glimpses of many phases of daily life-little tragedies, little comedies, little dramas of avarice and ambition. And the important part of this real-life kaleidoscope is this: that every day it shows wholly new and

different glimpses of the CHANCES and OPPORTUNITIES that are open to alert people. Every new turn of the kaleidoscope reveals a new chance to better our fortunes, to pursue self-interest, to turn something into money or to turn money into something else

There is, also, always a reasonable hope that the next turn of the want-ad, kaleidoscope will show us "our ship coming in'-our particular, personal opportunity to make money, or to invest, or to secure something long desired.

The person who misses a single turn of this want-ad. kaleidoscope is always apt to have missed the turn which would have altered his fortunes for the better. It's good policy and "good management" to let this kaleidoscope take an active part in your affairs
